

Course planning	9.00 - 10.00	10.00-11.00	11.00-12.00	12.00-13.00	13.00-14.00	14.00-15.00	15.00-16.00	16.00-17.00	17.00-18.00	COURSE	NOTE	Room
5 November 2021												
12 November 2021												
19 November 2021												
26 November 2021												
03 December 2021						Ostacoli L. 14.00 - 16.30				Post-Traumatic states: inflammation and brain-heart interplay		online
10 December 2021												
17 December 2021												
07 January 2022												
14 January 2022							Priano L Mauro A.			The neurophysiological and neurobiological bases of sleep disorders and circadian sleep-wake rhythm alterations		
						Ostacoli L. 14.00- 15.30				Post-Traumatic states: inflammation and brain-heart interplay		
21 January 2022							Priano L Mauro A.			The neurophysiological and neurobiological bases of sleep disorders and circadian sleep-wake rhythm alterations		
28 January 2022						Gamba P. - Leonarduzzi G.				Cholesterol and its metabolites in Alzheimer's disease: their action on brain cells and signaling pathways		
04 February 2022						Gamba P. - Leonarduzzi G.				Cholesterol and its metabolites in Alzheimer's disease: their action on brain cells and signaling pathways		
11 February 2022							Civra A. Lembo D.			From bench to a start-up		
18 February 2022							Porpiglia F.			New technologies in medicine and surgery		
25 February 2022							Porpiglia F.			New technologies in medicine and surgery		
04 March 2022							Calcagno A.			The impact of latent/chronic infections on neurodegeneration and organ damage		
11 March 2022							Calcagno A.			The impact of latent/chronic infections on neurodegeneration and organ damage		
1 April 2022							Ricceri F.			Biomedical research methodology	mandatory for the 37 th cycle and students of the 36th cycle who did not attend in the 20-21 academic year	face-to-face lesson
22 April 2022							Ricceri F.			Biomedical research methodology	mandatory for the 37 th cycle and students of the 36th cycle who did not attend in the 20-21 academic year	face-to-face lesson
29 April 2022												
06 May 2022												
13 May 2022												
20 May 2022							Biasi F. - Rossin D.			Oxidative stress and redox reactions		

Course planning	9.00 - 10.00	10.00-11.00	11.00-12.00	12.00-13.00	13.00-14.00	14.00-15.00	15.00-16.00	16.00-17.00	17.00-18.00	COURSE	NOTE	Room
27 May 2022						Biasi F. - Rossin D.				Oxidative stress and redox reactions		
03 June 2022												
10 June 2022								Raimondo S.		Tissue processing for morphological analysis		
17 June 2022							Raimondo S.			Tissue processing for morphological analysis		
24 June 2022												
01 July 2022								Ricciardolo		Translational medicine in severe asthma		
08 July 2022						Parola M.						
15 July 2022						Pagliari P				Writing and Speaking	mandatory for the 37° cycle	
22 July 2022						Penna F.				Writing a proposal in biomedical sciences: individual grants and fellowships	mandatory for the 37° cycle	face-to-face lesson
29 July 2022						Russo I.				Platelet dysfunction in metabolic diseases		
02 September 2022						Russo I.				Platelet dysfunction in metabolic diseases		
09 September 2022								Ricciardolo		Translational medicine in severe asthma		
16 September 2022							Pagliari P			Writing and Speaking	mandatory for the 37° cycle	
23 September 2022						Penna F.				Writing a proposal in biomedical sciences: individual grants and fellowships	mandatory for the 37° cycle	face-to-face lesson
September 26-30, 2022	Progress Report 2022 mandatory for all PhD students - the day will be announced
